HYDE'S LANDSCAPE SERVICE

ORNAMENTAL TREES AND PLANTS
ROSES - SHRUBS - FLOWERS
LAWN AND GOLF GRASSES
GARDEN FURNITURE

OUR MESSAGE to you is, first—to show the great importance of, and the real added value in making your home grounds attractive, and then—to offer to you a service that will insure the success of your efforts.

A well kept Lawn, Flowers or Shrubs give an atmosphere of dignity and refinement alike to the cottage or mansion. Even a small planting may appear as a rare jewel if it has the touch of a master hand.

In order that plantings may thrive and increase in value, consideration must be given to temperatures, exposures, moisture conditions, and effect of salt air, if near the Coast, also the expense and care of the upkeep. Our long experience and knowledge of California conditions has solved many of these problems for us—a service we now offer to you.

SPECIALIZING in Landscaping, our Mr. Dossche brings to you from both America and Europe a training and rich experience—not alone in the treatment of private grounds and estates, but public improvement work, parks, exposition grounds and conservatories, his first important work in America being on the grounds of the World's Fair at St. Louis, famous for the beauty and grandeur of the plantings. Of late years he has handled many important projects on the Pacific Coast.

TO IMPROVE our service, we have removed our Seed and Flower store from the congested down town area to temporary quarters at our home place. Here the entire personnel of our various departments is at your service.

There is room to park your car. The Flowers, Plants, Fruits can all be seen at seasonable times. The Lath Houses, Ornamentals, Evergreens, and the Greenhouses are always open to visitors.

A qualified experienced member of our organization will confer with you about your planting problems, give estimates, and where necessary can furnish labor for any planting operation for home grounds, golf clubs, or large estates.

ROCK AND ALPINE PLANTS

MUCH has been said and written of the beauties and pleasures of rock gardening, and justly so, for the rock garden offers unlimited possibilities and adventure in garden experience. As the list of rock plants is so extensive and varied that it can only be limited by your location and growing conditions, we have carefully selected the following as being the most interesting and desirable and that are sure to thrive under average conditions. Many rock plants are deep rooted and it is always best to plant them in as the rockery is built. In this way space and proper soil can be provided for plants that require special treatment. Good drainage, a little sand and loam, mixed with good garden soil, is sufficient to insure success. Fertilizers, if any, must be carefully and sparingly applied.

ROCK PLANTS WITHOUT ROCKS. For you who have no rocks, many of the finest alpiners and rock plants can be grown in beds like lovely little "garden rugs." Nothing is more charming.

No.	VARIETY	PRICE	No.	VARIETY	PRICE
1	ABRONIA <i>umbellata grandiflora</i>	\$0.40	14	AQUILEGIA <i>pyrenaica</i>	\$0.50
	Trailing habit. Verbena-like, rosy purple flower, lighter center. Native of California.			Large deep violet flowers. Very dwarf. Makes good rock plant.	
2	ACAENA <i>buchanani</i>35	15	ARABIS <i>albida rosea</i>35
	Light dry soil. Pretty bluish-green trailing foliage.			Varying shades of pink. 6-9".	
3	ACHILLEA <i>clavennae</i>35	16	ARABIS <i>alpina</i>35
	Rosettes of silver gray foliage, hugging the ground. Flowers white.			Forms a complete carpet of pleasing dull green foliage, covered in early spring with snow-white flowers. 3".	
4	ACHILLEA <i>tomentosa</i>35	17	ARABIS <i>alpina flore pleno</i> . Double white.30
	Dwarf habit. Bright yellow flowers, wooly green foliage; fine carpet plant. 6".			The double form. Just as free flowering as the single, but slower growth makes it more desirable. 2".	
5	AETHIONEMA <i>pulchellum</i>50	17A	ARCTOSTAPHYLOS <i>uva ursi</i>75
	Free grower; rosy purple flowers 4".			A prostrate evergreen shrub. White flowers followed by orange berries. 6". Rampant grower.	
6	AETHIONEMA <i>coridifolium</i> . Lilac-rose veined.40	18	ARENARIA <i>balaerica</i>35
	Beautiful shrubby rock plant. 6".			Close-turf-like habit. White flowers, small. Requires complete shade.	
7	AJUGA <i>reptans</i>50	19	ARENARIA <i>caespitosa</i>35
	Forms a close carpet 2 to 4 inches high of richly bronzed purple leaves. Flowers like mint blooms. Prefers damp, shade.			\$3.50 per doz.; \$3.00 per flat.	
8	ALPINE DAISY35		Might be called an emerald green moss. Likes a sunny site. Small white flowers. Fine for planting between stepping stones.	
	See ERIGERON <i>mucronatus</i> . No. 78.		20	ARENARIA <i>montana</i>35
9	ALYSSUM <i>saxatile compactum</i>35		\$3.50 per doz.; \$3.00 per flat.	
	Hardy border plant; low gray-green foliage; short plumes; bright yellow.			Of slender, graceful growth, trailing; dark green stems smothered in white flowers, late spring.	
9A	ANDROSACE <i>helvetica</i>50	21	ARMERIA <i>vulgaris</i>25
	Choice alpine; small dense rosettes; pink flowers. 2".			Grass-like foliage with pretty rose flowers on 9-inch stems. Fine for edging or rockery.	
9B	ANDROSACE <i>sempervivoides</i>75	22	ASTER <i>sub-coerulescens</i>35
	Rosettes of slightly hairy leaves and rosy purple flowers. 6".			Good species; very large lilac-blue flowers. 9".	
9C	ANDROSACE <i>carnea</i>75	23	ASTER <i>lichiangensis</i> . Purple.50
	Beautiful rose colored flowers; very neat rock plant. 4".		24	ASTER "Mauve Cushion"35
9D	ANDROSACE <i>primuloides</i> . Rosy lilac flowers on lovely rosettes of silky foliage. Easily grown but should have a top dressing of gravel to keep foliage from contact with damp soil.	.75	25	ASTILBE "America"50
10	ANEMONE <i>pulsatilla</i> . Violet-purple	.35		(Spireas)—These charming plants prefer light shade and must have ample water and fertility. Then they reward with fleecy plumes of various fetching pink shades. Popular pot plants at Easter 2 feet..	
	Desirable spring flower. 12".		26	ASTILBE "Davidii". Rose-violet.50
11	ANEMONE <i>vernalis</i>50	27	ASTILBE "Grandis". White.50
	Dwarf hairy plant purple flowers 2".		28	ASTILBE "Princess Mary". Light pink.50
11A	ANEMONE <i>baldensis</i>40	29	ASTILBE "Queen Alexandria". Light pink.50
	White star-shaped flowers. 3".		30	ASTILBE "Reubens". Deep rose50
12	ANTIRRHINUM <i>asarina</i>40	31	AUBRETIA <i>bougainvillea</i>30
	Large pale yellow flowers, cordate foliage, trailing habit.			A delightful rosy mauve shade. Plant hugs the ground. 3".	
13	AQUILEGIA <i>alpina</i>35			
	A beautiful short spurred form; blue; very rare. 9" high.				
13A	AQUILEGIA <i>canadensis nana</i>35			
	Charming dwarf form. Pretty for rockery. Orange red. 9".				

No.	VARIETY	PRICE	No.	VARIETY	PRICE
32	AUBRETIA "Crimson King". Rich crimson.	\$0.30	49	CERASTIUM <i>biebersteini</i>	\$0.30
	The richest of its color yet obtained. 2".			Pure white flowers, wooly white foliage. A refined "Snow-in-Summer," and said not to spread. 9".	
33	AUBRETIA <i>hybrida grandiflora</i>35	50	CERASTIUM <i>tomentosum</i>25
	New large flowered hybrids—many shades. Trailing habit.			Silvery foliage with white flowers. Excellent border plants. 6". Spreads rapidly; must be controlled.	
34	AUBRETIA <i>Mrs. Lloyd Edwards</i>35	51	CHEIRANTHUS <i>allioni</i>25
	Beautiful crimson-purple variety.			(Fairy Wall Flowers)—Flowers of brilliant orange are borne all summer. 12".	
34A	AZALEA <i>procumbens</i>	1.25	52	CHELONE <i>barbata</i>25
	Pretty rock species; pink flowers; 6"; rare.			Graceful racemes of small pink or red flowers springing from tufts of glossy foliage. 2-3 feet. Fine for a background.	
35	BELLIS <i>rotundifolia coerulescens</i>35	53	CHIRYSANTHEMUM <i>max. art.</i>35
	Charming little single Daisy—bluish flowers in abundance. 4".			The white flowers, like small Shasta daisies, appear June to late fall. Very low and compact. Dark green foliage. 1 foot.	
36	BELLIUM <i>minutum</i>30	54	CISTUS "Sunset".50
	A distinct and neat small-flowered Alpine Daisy; pale lilac ray. 3".			Beautiful dwarf bunch flowers. Large bright crimson-rose. 18".	
37	CALANDRINA <i>umbellata</i>35	56	CONVOLVULUS <i>mauritanicus</i>25
	A brilliant trailer with bright magenta flowers. A gem for the rocky. 6".			Delicate light blue flowers of Morning Glory shape. Trailing habit.	
37A	CALCEOLARIA <i>polyrhiza</i>40	57	CORTUSA <i>matthioli</i>35
	Pretty rock plant, clear yellow flowers, very dwarf. 6".			Deep red flowers in drooping umbels. Choice Alpine. 6".	
38	CAMPANULA <i>allioni</i>35	58	CORYDALIS <i>cheilanthisfolia</i>40
	Pretty Italian species. Pale violet-blue; very dwarf habit. 3".			Fern-like foliage; spikes of yellow blooms. 12".	
39	CAMPANULA <i>carpatica grandiflora</i>35	59	COTYLEDON <i>simplicifolia</i>50
	(Harebell, 8-inch)—Free flowering, robust and good looking; a soft blue. Deserves generous planting.			A beautiful species; deep yellow flowers in drooping racemes. 6".	
40	CAMPANULA <i>carpatica</i> "Riverslea Beauty".35	60	CRUCIANELLA <i>stylosa</i>30
	Much larger than the type. Flowers are white.			Early flowering perennial; rose flowers; creeping habit. Fine for dry banks or rocks.	
41	CAMPANULA <i>garganica</i>40	61	CYCLAMEN.40
	Trailing species; white, pale blue or purple flowers.			Beautiful foliage and a variety of mixed colors. Requires shade and leaf mold.	
42	CAMPANULA <i>glomerata</i>30	62	CYTISUS <i>radiatus</i>40
	Deep purple bells from stems a foot tall. Blooms in June.			Miniature bush. Bright yellow flowers. 9".	
43	CAMPANULA <i>glomerata acaulis</i>40	62A	DELPHINIUM <i>pylzwianum</i>40
	Large clusters of rich violet flowers; very dwarf. 3".			A rare little dwarf species, branching sprays of violet-blue flowers. 9".	
43A	CAMPANULA <i>grossekii</i>40	63	DIANTHUS <i>althoodii</i>35
	Light blue dwarf species; very choice.			A new variety producing mostly double flowers. Many shades. Quite hardy. 18".	
44	CAMPANULA <i>latifolia</i>30	64	DIANTHUS <i>alpinus</i>50
	Bell-shaped flowers from pale lavender to violet on a central stalk. Height 18 inches. Long blooming period. Strong grower.			Large flowers of brilliant rose. Rewards a little pampering. 2". Likes a little lime in loose loam.	
45	CAMPANULA <i>ramosissima</i>35	65	DIANTHUS <i>arvensis</i>35
	Large flowers; rosy lavender.			A diminutive form of Dianthus Caesius, very neat and attractive. Flowers pink, on 3" stems.	
46	CAMPANULA <i>portenschlagiana</i> (<i>muralis</i>).25	66	DIANTHUS <i>caesius</i>35
	Lovely species; purplish blue flowers.			A wonderful garden pink, with very erect stems and small single flowers in varying shades of pink. The foliage is itself most ornamental. Much used for rockeries. 9".	
47	CAMPANULA <i>pullodides</i>40			
	One of the choicest Alpines; very dark, russet blue flowers. 3".				
48	CAMPANULA <i>turbinata</i>35			
	Erect cup-like flowers; violet-blue; neat dwarf habit.				

No.	VARIETY	PRICE	No.	VARIETY	PRICE
67	DIANTHUS "Crimson Bedder" A new hybrid of great beauty. Crimson-pink.	\$0.40	80B	ERPETION <i>reniforme</i> Pale violet and white. Very dwarf and neat. 3 inches.	\$0.45
68	DIANTHUS <i>deltoides</i> Tiny flowers of deep rose color com- pletely cover the plant in spring. Creeping habit. Try a dozen in border or rock garden. 6".	.25	81	ERYSIMIM <i>pulchellum</i> Close mats of dark green with yellow blooms. 8 inches.	.35
69	DIANTHUS "Gladys Cranfield" Huge single blooms of delicate pink, with a central zone of velvety crim- son. Most attractive of the Hardy Pinks. Vigorous and free flowering. 18".	.75	82	ESCHSCHOLTZIA "Primrose"—4-6 inches. Fine for edging or rockwork. Plants covered with small pale lemon flowers.	.35
70	DIANTHUS <i>mexicana</i> A beautiful rich red, deepest in its color—two feet. Stock is limited.	.75	83	FESTUCA <i>glauca</i> Close growing grass of blue-grey needle-like blades. 6 inches.	.25
71	DIANTHUS <i>neglectus</i> Many call this the handsomest of rock pinks. A striking cherry-red. Gritty soil and perfect drainage. 3".	.50	84	EULALIA <i>japonica gracilis</i> Ornamental grass of dark green. Graceful and drooping. Fine for edge of pool.	.25
72	DIANTHUS <i>plumarius</i> Just the well-known, old-fashioned garden pinks, saturating the spring air with their fragrance and casting enchantment over the garden. Pink or white. 2".	.25	85	FRAGARIA <i>chiloensis</i> Trailing strawberry, white blooms; good for ground cover. Rapid grower.	.25
73	DIANTHUS <i>sundermanni</i> Pure white flowers. Much admired. 1 foot.	.40	86	FUCHSIA <i>prostrata</i> Beautiful trailing habit. Red flow- ers followed by large purple berries. Nothing better for trailing over a wall.	.50
74	DODECATHEON <i>meadia</i> Pale purple and yellow. Elegant dwarf spring bloomer.	.40	86A	GALIMUM <i>rubrum</i> Good rock plant. Masses of choco- late colored blooms.	.50
75	DORONICUM Flowers like a huge yellow daisy, 3 inches across, on 15-inch stems. One of the earliest glints of sun- shine in the garden.	.25	86B	GAZANIA <i>splendens</i> Fine for mass effect. Foliage hidden by masses of brilliant orange flowers like daisies.	.35
76	DOUGLASIA <i>laevigata</i> Glossy deep green foliage and bright pink flowers. 3". A rare plant.	.35	86C	GAZANIA <i>splendens</i> A slightly taller habit and clear bright yellow flowers. Long bloom- ing season.	.35
76A	ECHIMUM <i>creticum</i> Red flowers in long racemes. 24". Desirable in dry soils.	.50	87	GENTIANA <i>acaulis</i> Rich ultramarine-blue, trumpet- shaped flowers.	1.00
76B	ECHIMUM <i>vulgens</i> Very showy brilliant blue. 18". Flowers red buds. For sandy soils and fine for bees.	.50	87D	GERANIUM <i>argenteum</i> Silky white foliage. Pale purple flowers—for rockery.	.40
76C	EMPETRUM <i>nigrum</i> A dwarf bush form having black berries following white flowers.	.40	88	GERANIUM <i>traversii</i> Beautiful plant. Woolly, silvery- grey foliage, bright pink flowers. One of the best geraniums.	.35
77	ERICA <i>cinerea coccinea</i> Very rare; bright scarlet flowers. 3".	1.00	88A	GERANIUM <i>cinereum</i> Pretty dwarf alpine species—pale purple flowers—rare.	.40
77A	ERICA <i>vagans alba</i> White flowers. 6 inches.	1.00	88B	GERANIUM <i>sessiliflorum</i> Dark green foliage, greyish white flowers—very curious.	.35
78	ERIGERON <i>mucronatus</i> (Alpine Daisy)—Small daisy-like flowers of pale pink, 6" stems. Free and persistent flowering.	.30	89	GEUM <i>ciliatum</i> The most attractive feature of this plant is the feathery seed-pods which are an ornament to the garden for a long time. 8". Pink flowers.	.35
79	ERIGERON <i>multiradiatus rosea</i> Dainty little plant for rockery. Dwarf habit; pink daisy-like flow- ers.	.30	89A	GEUM <i>rossii</i> Rare dwarf yellow species, shining foliage.	.35
80	ERINUS <i>alpinus</i> Leafy rosettes and delicate lavender flowers. 4". Fine for rock or pot plant.	.25	90	GEUM <i>reptans</i> A really choice plant. Large orange flowers, spiral heads of seeds. The plant produces runners like a straw- berry.	.35

No.	VARIETY	PRICE	No.	VARIETY	PRICE
90B	GLOBULARIA <i>nana</i>	\$0.35	113	IRIS <i>pumilla</i> . Rich purple	\$0.35
	Close growing miniature, studded with violet-blue buttons.			The dwarfest and earliest of all iris. Rich purple flowers, 6 inches high. making the plants particularly fine for rock gardens or bordering taller iris.	
91	GYPSOPHILIA <i>repens</i>30			
	White flowers, trailing; good rock plants.		113A	IRIS <i>tenax</i> . Mauve-marked yellow and white35
91A	GYPSOPHILIA <i>cerastioides</i>35	114	IRIS <i>isolepis gracilis</i>25
	Pretty dwarf, Alpine; flowers white, red veined. 3 inches.			Slender bright green drooping foliage.	
92	GYPSOPHILIA <i>repens rosea</i>30	114B	LEUCOPHYTUM <i>brownii</i>35
	Delicate trailing plant with light pink flowers.			Beautiful coniferous-like foliage. Brilliant silver-grey. Yellow flowers. Bush form. 12".	
92B	HABERLEA <i>rhodopensis</i>35	114C	LEWISIA <i>tweedyi</i>50
	Dense tufts of leaves, small Gloxinia-like flowers, rare and beautiful rock plant.			Large delicate creamy peach flowers. Very rare plant of rosettes of fleshy spoon-shaped leaves. 3".	
93	HELIANTHEUMUM—Sun Rose. . .	.25	115	LEWISIA <i>finchii</i>50
	Apricot—rich shade.			Same plant as other only large, handsome, soft pink flowers.	
94	HELIANTHEUMUM—Low growing creepers. Pink—Single with yellow stamens; foliage grey.		116	LIATRIS <i>punctata</i>50
95	HELIANTHEUMUM—Red—Double; foliage green.			Blooms in late fall; rose colored spikes verging on magenta and very numerous.	
96	HELIANTHEUMUM—Yellow—Fine rock plant.		117	LINARIA <i>alpina</i>30
97	HERNIARIA <i>hirsuta</i>30		Orange and purple flowers; grayish green foliage. Elegant dwarf rock or border plant—trailing.	
	Forms a neat carpet of rich green foliage.		118	LINARIA <i>anticaria</i>30
98	HIERACIUM <i>villosum</i>50		Dwarf alpine species—yellow flowers. 6".	
	Yellow flowers, silvery leaves—hairy foliage. 12 inches.		119	LINARIA <i>cymbalaria</i> (Kenilworth Ivy).25
99	HOUSTONIA <i>coerulea</i>35		Beautiful trailing plant with lavender flowers. Robust grower in the shade.	
	Desire shade and moisture. Neat compact tufts. Flowers from blue to white on 4-inch stems.		120	LYCHNIS <i>alpina</i>35
100	HYPERICUM <i>polyphyllum</i>40		Dwarf with brilliant rose colored flowers in spring and early summer. 3".	
	Very similar to Hypericum repens, and equally fine foliage.		121	LYCHNIS <i>lagascae rosea</i>40
101	HYPERICUM <i>repens</i>45		Rosy carmine flowers borne on plants of tufted habit. 4".	
	A multitude of slender stems, clothed with pretty leaves and terminating in golden yellow flowers, make this one of the most satisfactory rock garden subjects. 6".		122	LYCHNIS <i>viscaria splendens plena</i>40
102	IBERIS <i>sytilosa</i>40		This plant will be noticed in any rock garden, no matter how choice the other occupants may be. Clear cerise flowers on 8-inch stems form a perfect mound of arresting color. The plant itself is a low tuft of grassy leaves. Stock limited.	
	Pale pink flowers, compact habit. 3".		123	MENZIESIA <i>potifolia</i>	1.00
103	IBERIS <i>tenoreana</i>40		Dwarf shrub—heather-like foliage. Handsome large purple bells growing thickly on stems. 24".	
	White changing to pale purple; very showy. 9".		124	MENZIESIA <i>alba</i>	1.00

109	IRIS—"Fairy"—Light blue.35			
110	IRIS "Florida." Clear yellow.35			
111	IRIS <i>lacustris</i> . Lavender.35			
112	IRIS "Orange Queen". Deep yellow. .	.35			

No.	VARIETY	PRICE	No.	VARIETY	PRICE
127	NEPATA <i>musini</i>	\$0.25	142	PHLOX <i>amoena</i>	\$0.40
	Tumbling masses of gray-green foliage as a foil for the clouds of lavender flowers. Nothing more satisfactory for liberal use in the rock garden or border. 1 foot. Cutting old flowers will keep it in bloom.			Only 4 inches high, suited to rockery or the garden. Bright pink flowers entirely cover the plant in late spring.	
127A	NEPETA <i>hederaceae</i> var.....	.40	143	PHLOX <i>drummondii</i> , gr. fl. Brilliant..	.30
	Beautiful hanging plant with silver and deep green variegated leaves. Strong thrifty grower.			A deep rose—dark eye—white throat. Fine dwarf species. Annual.	
128	NERTERA <i>depressa</i>50	144	PHLOX <i>carnea</i>30
	Densely tufted plants, thickly studded with scarlet berries. 9". Needs slight protection in severe weather.			Same dwarf habit with pale pink heads.	
129	OENOTHERA <i>macrocarpa</i>25	145	PHLOX <i>carnea nana</i> Defiance.....	.30
	Large yellow flowers.			Extra dwarf—a brilliant crimson color.	
130	OENOTHERA <i>missouriensis</i>30	146	PHLOX <i>sublata</i> "Moss Pink".....	.40
	Fine trailing species; beautiful.			A trailing plant which soon forms a mat of bright green, changing to a solid rug of color when in flower. Lilac—especially good; pink; white.	
131	OENOTHERA <i>rosea mexicana</i>30	147	PHLOX <i>sublata</i> "Vivid".....	.40
	Pretty dwarf species with large deep rose flowers.			Brilliant rose-pink, blooms several weeks later than others. Does not spread. Extra choice.	
132	OENOTHERA <i>taraxacifolia alba</i>30	148	PHLOX <i>sublata coerulea</i>40
	Large flowers changing from pure white to rose.			A fine dwarf blue Phlox.	
132B	OMPHALODES <i>lucilae</i>40	150	PHYSOSTEGIA <i>virginica</i>35
	Very choice plant with glaucous foliage and soft blue foliage. 6 inches.			A month later than the pinks. Dainty heather-like flowers, lovely bright pink color.	
133	ONOSMA <i>stellulatum</i>40	151	PHYTEUMA <i>nigricans</i>50
	A gem for the rock garden. Pale yellow flowers. 6 inches.			Red flowers of curious shape. A rare sort.	
135	OXALIS <i>hirata</i>25	152	PHYTEUMA <i>wagneri</i>50
	Bulbous species. Rich green foliage turning to red before dormancy. Beautifully studded with red flowers. Trailing.			Crowded heads of blue flowers. Sun and a gritty soil suit phyteumas. Another rare plant.	
137	OXALIS <i>valdiviana</i>30	153	PLUMBAGO <i>larpentae</i>35
	Fine for dry walls or rockery. Flowers a bright yellow. 6 inches.			Said to have been discovered on the walls of Pekin, this Chinese plant is invaluable in the rock garden, as it introduces a note of intense blue in the fall, when that color is scarce indeed. Fine autumn foliage.	
138	PARNASSIA <i>palustris</i>40	154	POLEMONIUM <i>humile</i>30
	Fine for damp position or boggy ground. Masses of pure white flowers; grassy foliage.			A true Alpine with pale blue flowers on stems a few inches in height.	
139	PENSTEMON— <i>rattani minor</i>50	155	POLYGONUM <i>brunonis</i>50
	Found on Mt. Hood at elevation of 6000 feet. Shining green leaves, pleasantly spreading tufts. Soft blue or mauve flowers. Requires excellent drainage. 4".			Fine dwarf rock plant; pink flowers in close spikes.	
140	PENSTEMON <i>cardwellii</i>50	156	POLYGONUM <i>vaccinifolium</i>	1.00
	Blooms in successive series several times each season. Short spikes of bright purple. Requires excellent drainage. 8–12 inches.			A rare prostrate shrub from the high Himalayas. Once established, the spikes of small pink flowers are freely produced. It is ideal for falling over a wall. Fine autumn tints. A very few plants.	
140A	PENSTEMON <i>roezlii</i>50	157	POTENTILLA <i>gracilis rigida</i>40
	Spreading shrubby effect 2 inches high. Beautiful rosy purple flowers. Requires excellent drainage.			Dwarf variety with large golden yellow flowers.	
141	PENSTEMON <i>rupicola</i>50	158	POTENTILLA "Mrs. Wilmot Taylor".....	.35
	Greyish foliage. Dry position, 3–4 inches. Rose-pink and sometimes light purple. Requires excellent drainage.			Strong ground cover; beautiful rose-pink blooms in abundance.	
			159	POTENTILLA <i>roxana</i>35
				Another strong grower with orange-red blooms.	

No.	VARIETY	PRICE	No.	VARIETY	PRICE
159B	PRIMULA <i>auricula</i>	\$0.40	165	RAMONDIA <i>pyrenaica</i>	\$0.40
	Dwarf Alpine plant. 3 inches.			Fine alpine for rockery. 6". Violet flowers.	
160	PRIMULA <i>calycina</i>40	165A	RHODODENDRON <i>chamaecistus</i> . . .	1.00
	Rich red flowers. 4 inches.			Hardy dwarf growing 6 inches high. Pale purple.	
161	PRIMULA <i>integrifolia</i>40	165B	RANUNCULUS <i>repens flore plena</i> . .	.50
	Beautiful species, bright pink. 3".			Partial to a damp location. Spreads rapidly. Bright green foliage, clear yellow flowers like pom pons.	
162	PRIMULA <i>malacoides</i>35	166	SAPONARIA <i>ocymoides splendens</i> . .	.35
	Blooming in winter; lavender and pink flowers in series of colors.			Trailing plant, a mass of rose color in May and June.	
163	PRIMULA <i>minima</i>50			
	Dwarfest of all and large rose flowers. 1".				
164	PRIMULA <i>pulverulenta</i>50			
	Of most amiable disposition and imposing appearance. With ample moisture and rich ground it grows two to three feet tall. The flowers of soft rich red are borne in successive whorls. 24".

No.	VARIETY	PRICE	No.	VARIETY	PRICE
167	SAXIFRAGA <i>aizoides</i>	\$0.50	171	SAXIFRAGA <i>lingulata</i>	\$0.35
	Flowers vary from yellow to orange and deep mahogany red. 3 inches.			Long encrusted foliage with panicles of white flowers. 9".	
168	SAXIFRAGA <i>aretioides</i>50	172	SAXIFRAGA <i>megesea</i>35
	Neatly tufted yellow flowers. 3".			Broad-leaved and evergreen, umbles of soft rose flowers in very early spring. Half shade. 12 inches.	
169	SAXIFRAGA "Beauty of Ronsdorf".	.40	173	SAXIFRAGA—Mossy sorts.30
	Mossy mounds of bright green are practically obscured by the deep red flowers in early spring. Light shade.			Includes all the best most brilliant shades. Close growing deep green foliage.	
170	SAXIFRAGA <i>cochlearis</i>45	174	SAXIFRAGA <i>pyramidalis</i>50
	Tiny encrusted rosettes, white flowers. 2".			The finest of this class. Two-foot flower stems bearing hundreds of tiny white blooms.	
170A	SAXIFRAGA <i>columbaria</i>50			
	Very dwarf—a perfect gem. From tiny rosettes stems arise bearing clusters of rosy purple flowers 4".				

This view is in our display Garden at Watsonville, where you may see typical Examples of Spanish patios and mission walls, English courts and brick walls—dry rock walls and the distinctive Carmel stone.

The Magnificent Stone tables and seats are most unusual and have great natural beauty harmonizing perfectly with formal or natural surroundings. *We build and finish these to order.*

SEDUMS					
These plants have fleshy leaves, are mostly evergreens, and thrive in well-drained, sunny places, making effective subjects for the rock garden, and the more robust growers are fine ground covers.					
175	SEDUM <i>acre</i>	\$0.40	192	SEDUM <i>sexangulare</i>	\$0.35
	Bright green foliage and equally brilliant yellow flowers. Creeping.			Gives an impression of slenderness and grace. 3 inches.	
176	SEDUM <i>album</i>40	193	SEDUM <i>spectabile</i>55
	Vividly green, at blooming time sprinkled with white stars. Will crowd out choicer small plants, so place accordingly. 3" tall.			Late blooming—red flowers.	
177	SEDUM <i>arborescens</i>55	194	SEDUM <i>spurius</i>40
	A bushy sort some 9 inches tall. Blush flowers.			Green foliage, pink flowers. 6".	
178	SEDUM <i>coeruleum</i>40	195	SEDUM <i>spurius coccineum</i>40
	A rare variety, small blue—9".			Crimson flowers in July and August. Foliage assumes reddish tones in autumn.	
179	SEDUM <i>dasyphyllum</i>55	196	SEDUM <i>stahli</i>40
	Glaucous, bead-like foliage, pinkish-white flowers. 2 inches.			Vivid green in midsummer, generously touched with bright red. 3"	
180	SEDUM <i>fabaria</i>40	197	SEDUM <i>stolonifera</i>40
	Large flowered. Rose.			Flower lavender-pink, leaves noticeably flat. 6 inches.	
181	SEDUM <i>grandiflora</i>40	198	SEMPERVIVUM <i>arachnoidum</i>50
	A fine hardy variety blooming white.			Rosettes, pale purple flowers.	
182	SEDUM <i>hispanicum (glaucum)</i>45	198A	SEMPERVIVUM <i>laggeri</i>50
	One of the loveliest, with its bluish-gray mats of foliage. Creamy blossoms. 2".			Leaves grey-green—red at tips. Rose flowers.	
183	SEDUM <i>kamtschaticum</i>40	199	SILENE <i>acaulis</i>50
	4 or 5 inch stems clothed with cheerful green foliage, are topped with orange flowers.			Tufted and dwarf; fine Alpine variety. Pink flowers. 2 inches.	
183A	SEDUM <i>lineare var.</i>30	200	SPIREA <i>filipendula</i>40
	A variegated form. Very fine grower.			White flowers trimmed with purple in clusters on stems 18 inches tall. Foliage is fern-like and basal.	
184	SEDUM <i>lydium roseum</i>30	201	SPIREA <i>filipendula hexapetala</i>50
	Low and flat, pink flowers.			Finely cut foliage with clusters of pretty creamy flowers on 15 inch stems.	
184A	SEDUM <i>mexicanum</i>30	202	SPIREA <i>filipendula ulmaria plena</i>50
	Should be given some room. Long shoots bearing yellow flowers. A fine addition to the rockery.			Fern-like foliage, very good in itself, and in addition tall sprays of small white flowers. 2 feet. A very uncommon plant.	
185	SEDUM <i>oregonum</i>40	203	STACHYS <i>corsica</i>35
	Noticeably fleshy shoots, native to Oregon, and ranking among the most attractive.			Beautiful carpeting plant. Flowers hugging the foliage of a blush white.	
186	SEDUM <i>pilosum</i>35	204	STEVIA <i>serrata</i>35
	3 inches. One of the best late introductions. Beautiful waxy pink flowers in flat heads.			Sweet scented; small white flowers. Fine for cutting. 12 inches.	
186A	SEDUM <i>praecaltum</i>55	205	STIPA <i>bulbosa</i>35
	An encrusted variety, bush form. Stock very limited.			A beautiful variegated grass spreading from bulbs. A fast grower. Good for pool's edge. 18".	
187	SEDUM <i>pruniatum forsterianum</i>45	206	SYMPHIANTRA <i>wanneri</i>40
	Golden yellow flowers, trailing habit.			Purple flowers, erect habit, 6 inches.	
188	SEDUM <i>reflexum</i>35		THYMUS (Thyme)	
	Vigorous trailing growth. Yellow flowers. Sun or light shade.			Deliciously aromatic foliage is a feature of most of these. But they have good looks to recommend them. Prefer sunny exposure.	
189	SEDUM <i>replesiana</i>35	207	THYMUS <i>albus</i>45
	Upright growth, very attractive. 9"			Creeping stems and tiny foliage, white flowers.	
190	SEDUM <i>rupestre</i>35	207A	THYMUS <i>aureis</i>50
	A British species with bright yellow flowers.			A gold variegated variety. Growth is robust and bush-like. 6 inches.	
191	SEDUM <i>sarmentosum</i>40	208	THYMUS <i>azoricus</i>45
	A light green sort from China. Creeping. Pale yellow flowers.			Rare creeping sort.	
			209	THYMUS <i>citriodorus</i>45
				Delicious lemon scent. 8 inches.	
			210	THYMUS <i>argenteis</i>45
				Silver leaved. 8 inches.	
			211	THYMUS <i>lanuginosus</i>50
				Wooly leaved thyme, especially fine to fall over a dry wall. Trailing.	

No.	VARIETY	PRICE
212	THYMUS <i>serpyllum</i>	\$.40
	Trailing, with pinkish - lavender flowers.	
213	THYMUS <i>serpyllum albus</i>45
	Same, with white flowers.	
213A	THYMUS <i>serpyllum coccineus</i>45
	Bright red, most effective variety.	
214	TUNICA <i>saxifraga</i>25
	A splendid filler and softener for the rock garden. The low clump of grassy foliage is quite obscured by the cloud of pale pink flowers resembling a miniature "baby breath." Blooms all summer.	
215	VIOLA—Apricot.....	
	Each .25; doz. 2.50; 100 20.00	
	Beautiful and unusual, rich shade of apricot; broad petals.	
215A	VIOLA <i>alpina</i>	
	Each .25; doz. 2.50; 100 20.00	
	Rather large flowers, purplish on long stems—fine addition to the rock garden.	
216	VIOLA <i>gracilis</i>	
	Each .25; doz. 2.50; 100 20.00	
	Deep purple—a close resemblance to a violet—6 months blooming period if old blooms are sheared.	
217	VIOLA—Jersey Gem.....	
	Each .25; doz. 2.50; 100 20.00	
	The large deep violet flowers have ruffled petals, long stems and are fragrant. Free and continuous.	
217A	VIOLA—Jersey Jewel.....	
	Each .25; doz. 2.50; 100 20.00	
	Larger than Jersey Gem and just as free blooming. New.	
218	VIOLA—Portland.....	
	Each .25; doz. 2.50; 100 20.00	
	Brilliant dark purple, large flowers, long stems, free blooming.	
218A	VIOLA—Radio.....	
	Each .35; doz. 3.50; 100 25.00	
	A beautiful new introduction, lavender-blue and a profuse bloomer.	

No.	VARIETY	PRICE
	VERONICAS	
	These include some of the most delightful blues in the garden and are easily grown.	
219	VERONICA <i>bachhofeni</i>	\$0.35
	One of the very handsomest of this very large family. The azure flowers are arranged on loose spikes which grow from 18 inches to 2 feet tall.	
220	VERONICA <i>catractae</i>40
	White flowers in profusion. A gem for the rock garden.	
220A	VERONICA <i>chatamica</i>75
	Small prostrate shrub with light green foliage, lavender flowers.	
221	VERONICA <i>incana</i>40
	Silvery foliage, deep blue flowers. 8 inches.	
222	VERONICA <i>prenja</i>45
	This is seldom catalogued in America. A charming plant for rockery or perennial border. 9 inches. Soft blue. Blooms with and is fine foreground for Iris.	
223	VERONICA <i>repens</i>40
	Only an inch tall, starred with azure-blue flowers.	
224	VERONICA <i>rupestris</i>35
	A gem, with evergreen trailing foliage and charming blue flowers in the utmost profusion.	
225	RUPESTRIS <i>rosea</i>50
	A pale pink form of the well-known Rupestris, which will be a real novelty in most rock gardens.	
226	RUPESTRIS <i>spicata</i>30
	Violet-blue in long spikes, dwarf creeping habit.	
227	RUPESTRIS <i>spicata rosea</i>30
	Spikes of rose flowers. 1 foot.	
229	WAHLENBERGIA <i>graminifolia</i>50
	Flowers of a violet-blue, curious foliage; fine for rock wall. 2 inches.	
230	WAHLENBERGIA <i>dalmatica</i>50
	Rare sort—deep violet flowers. 6 in.	

ROCK WALLS *and* TERRACES

IMPOSING natural effects combining dry rock work with stately evergreens for hill-sides, terraces, entrances, driveways, embankments.

SEE General Catalog for complete stock of ornamental evergreens. We can advise suitable varieties to meet conditions or exposures.

HYDE'S BULB LIST

Bulbs to give the best results should be planted early and if you will place your orders with us before October 15th, stock can be shipped as soon as ripe and you should have the finest kind of flowers from your beds.

TIME OF PLANTING—So many ask the question when bulbs should be planted to get the best results. Daffodils, Narcissus, Iris, Baby Gladiolus, Hyacinths, Harebells, Ixias, Sparaxis, Callas, Mariposa Lilies, Oxalis, Ranunculus and Tulips should be planted from October on, the sooner they are in the ground the better results they will give. Any of the above planted after January may bloom, but the flowers the first year will usually be poor and deformed with short stems.

Amaryllis and Yellow Callas are best set in March or April. Alstroemeria from pots or cans can be planted any time, although December to March is best. Begonias—see instructions on page 2. Freesias should be planted during August or September, not later for good results. Gladiolus any month when stock is obtainable. Gloxinias—same as Begonias. Japanese lilies from October to December, the earlier the better. Tigridias and Watsonias February and March.

A general rule regarding soil will cover almost any variety of bulb. Have your bed well drained to prevent the drowning out of the bulbs. A good porous loam to which has been added a liberal application of fertilizer, preferably old animal manure. This should be well incorporated. Be sure that fresh or chunky manure does not touch your Tulips, Iris, Lily or Freesia bulbs.

ALSTROEMERIA (Peruvian Lily)

(Sent by Express)

Rich orange blossoms on long stems. Splendid cut flowers. July bloomer.

Plants out of pots, 25c each; \$2.50 dozen.
3-year-old plants, 50c each.

AMARYLLIS

(If wanted by mail add 5c each; 25c dozen)

HYBRIDS—Large flowering. Beautiful shades and colors. 50c each; \$5.00 dozen.

ANEMONES

MIXTURE—60c doz.; \$4.50 per 100. Postpaid.

BEGONIAS (Tuberous Rooted)

(Postpaid within 3rd zone)

DOUBLE, SINGLE, or GIANT FRILLED—

Red, salmon, yellow, white pink.

CRESTED—Mixed colors only.

25c each; \$2.50 dozen; \$16.00 per 100.

We are endeavoring this year to popularize the Begonias and would like to see a massed planting in many yards. For that reason will offer a good bedding blooming size bulb, 1 in. to 1½ in., mixed singles or mixed doubles, at \$10.00 per 100. This offer only holds good in 50 lots or over.

Bulbs ready for delivery in January. Do not plant until spring, when a pink swelling shows in the center of the crown. Do not cover the top of the tuber with soil. Too early or too deep planting may kill the tuber. Send for planting instructions.

CALLA LILIES

(Postpaid within 3rd zone)

WHITE—15c each; \$1.50 dozen.

YELLOW—25c each; \$2.50 dozen.

MACULATA—(White with spotted leaves.)

25c each; \$2.50 dozen.

PINK—50c each; \$5.00 dozen.

RED—50c each; \$5.00 dozen.

FREESIAS

(Postpaid within 3rd zone)

AURORA—Yellow suffused with orange.

75c per dozen; \$5.50 per 100.

CARMENCITA—Light orange salmon.

75c per dozen; \$5.50 per 100.

BARON J. HULOT—The leading purple variety.

BYRON L. SMITH—Beautiful lavender-pink on white ground.

CRIMSON GLOW—Brilliant crimson flowers of immense size.

GOLDEN MEASURE—Rich golden yellow. Growth vigorous, throwing exceptionally large flowers on tall erect spikes.

GRETCHEN ZANG—Pink, blending into scarlet on lower petals.

HALLEY—Beautiful salmon pink, lower petals marked with carmine, gold suffusion. Flowers very large.

HERADA—Giant mauve blooms with deeper markings in throat.

LE MARECHAL FOCH—Immense beautiful light pink blooms. Larger and earlier than America.

LILY WHITE—Magnificent new white.

MRS. DR. NORTON—Pure soft white, tips of petals suffused pink.

MRS. FRANCIS KING—Fine straight spikes of light scarlet.

MRS. FRANK PENDLETON—Immense flowers of lovely salmon-pink. Lower petals blotched with red.

MYRA—Deep salmon; showy.

PANAMA—A beautiful deep pink. Very fine for cutting or bedding.

PRINCE OF WALES—Light salmon. Extra fine.

PRIMULINUS HYBRIDS—Quite different from other gladioli but extremely popular, having a more slender growth and small flowers. Colors run mostly to various shades of yellows and orange with some pink and reds. Unexcelled for cut flowers and decoration.

ROSE ASH—Large spikes with ruffled flowers, ashes of rose color. Splendid novelty.

VIRGINIA—Choice red, fine flower.

WILLBRINK—Large open flowers of soft flesh pink with cream shadings. Blooms freely.

MIXED GLADIOLI—Hyde's Mixture—Fine named varieties.

5c each; 55c per dozen; \$4.00 per 100.

GLADIOLI (Baby)

(Postpaid within 3rd zone)

MIXTURE OF ORDINARY SORTS—

50c dozen; \$3.50 per 100.

GRASSES AND CLOVERS

All Prices F. O. B. Watsonville—Subject to Change Without Notice

On Large Orders Write for Special Quotation

A WELL KEPT LAWN adds so much to the value and beauty of your home grounds that special attention should be given to the thorough preparation of the soil before planting. This will establish it quickly, insure permanency and lower the cost of maintenance. If the ground is inclined to be dobe, add sharp sand.

Well rotted manure is valuable in the first preparation as it furnishes the humus necessary.

After preparing the seed bed, give it a good watering. This brings up the weeds. They should be pulled or hoed out and this process repeated two or three times.

Do not spade up the ground or hoe it before planting after the weeds are worked out.

In Central California the grass can be sown from September to November and March to May.

Never use stable manure for dressing a lawn, it brings weeds and trouble. A good dressing of Hyde's Lawn Fertilizer is much more efficient and economical, sustaining the growth and color.

A well kept lawn and correct grouping and arrangement of shrubs, trees, beds and borders lend an individual charm that reflects the personality of the owner. Our Landscape Department can help you to get best results.

HYDE'S FANCY LAWN MIXTURE

The most satisfactory combination of grasses for our local conditions. Makes a good lasting turf. 1 lb. sows 250 sq. ft. **Lb. 50c, 10 lbs. \$4.50**
